

Critter Scene Investigation

- aquatic
- arachnid
- arthropod
- camouflage
- chrysalis
- cocoon
- consumer
- decomposer
- desert
- habitat
- incomplete
- insect
- interdependency
- metamorphosis
- pollinator
- predator
- prey
- producers

Across

1. egg, nymph, then adult stage
2. jointed legs, segmented bodies, exoskeleton
8. dry earth area we live in: Sonoran _____
9. case spun by insect to protect pupa
10. home for water critters: _____ habitat
12. consumes (eats) plants or other animals
13. critter that moves pollen to flowers
14. immature insects change to adult form
