

# SABINO CANYON

## VOLUNTEER NATURALISTS

### Covid-19 Policy:

SCVN is committed to doing what we can to keep our members safe. We applaud members concerned about their safety who choose to stay involved by working on committees rather than in roles where they have contact with members of the public. The SCVN board encourages everyone to stay up to date on vaccinations for their own safety and for the safety of others.

Participating schools will be informed that our policies regarding masking can change with increased infection rates. Please be respectful in situations where you are in close contact with others, especially in indoor events, where masking is highly recommended. If you do test positive at any time or if you feel unwell, please step back from SCVN activities for at least 10 days or until you are healthy.

*The CDC urges people to monitor [community transmission](#), "stay up to date on vaccines, and take appropriate precautions to protect themselves and others." For more information, please see [CDC community transmission](#).*

*As always, policies about vaccination and masking are subject to change based on COVID variants, USFS policies, Pima County and AZ Departments of Health, and CDC public health directives and guidance.*
